

DE DIMORA

DE DIMORA

The history of the rug has millenary origins.

Today we continued to make real your dreams.

This is our dream.

We do with passion, with the choice of materials, of colors and drawings for making your environment elegant and comfortable, allowing you to fly in the happiness.

DE DIMORA

INVENTING AND DRAWING YOUR RUG

DE DIMORA

THE ARTISTIC CONCEPT

From an idea, a sketch, a photo or a fabric coupled with the colours and design of your space.
Or from the thought of an artist.

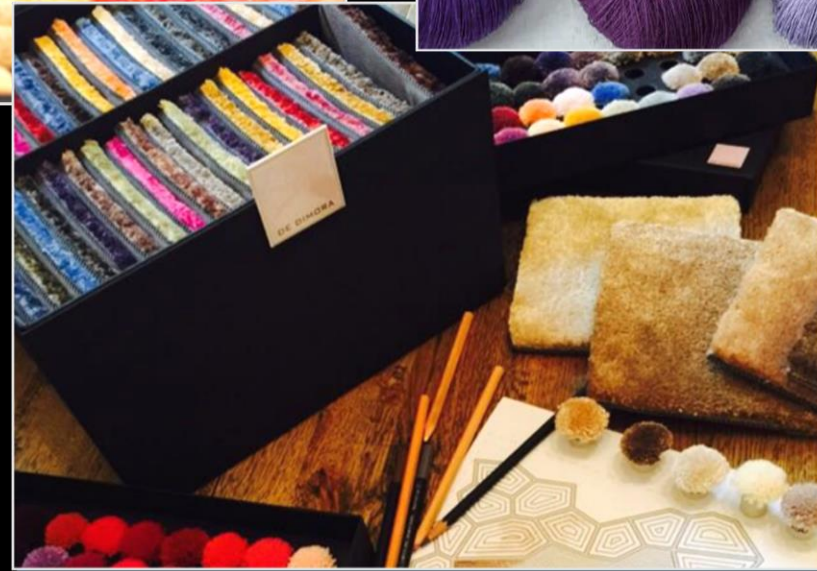

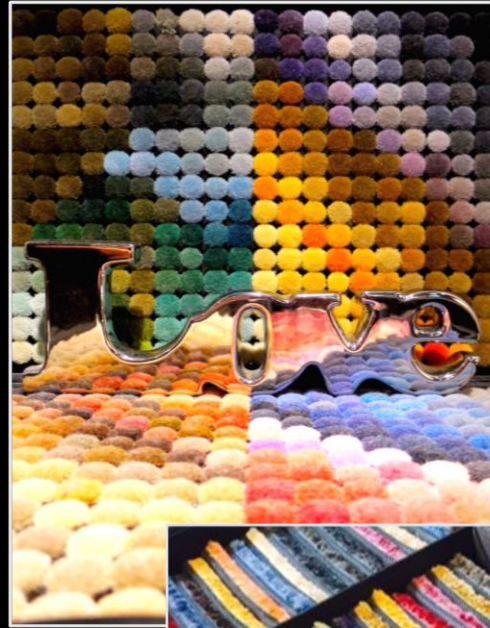

COLOURS AND MATERIALS SELECTION

A design of a rug is only a part of its beauty.

It needs colours, selected among four hundred.

De Dimora, with its customer will select materials from Artsilk Tencel, Wool, Viscose, Cotton, Polyamide, Polypropylene, Econyl to complete the project.

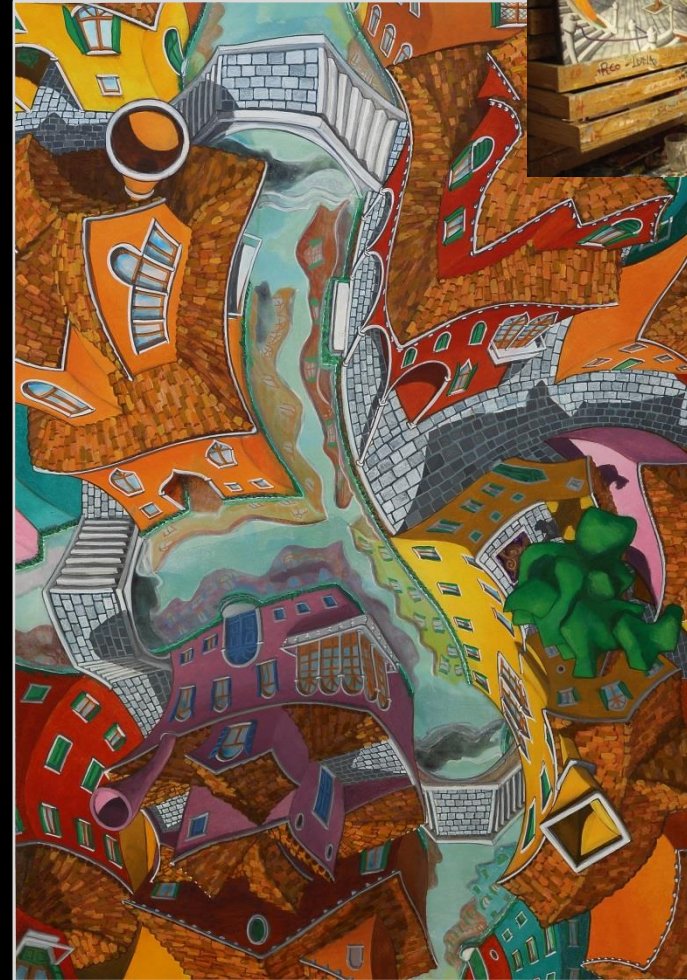

And it is only the beginning....

DE DIMORA

THE PROJECT IS READY AND DE DIMORA WILL
PROCESS THE WORK THROUGH ALL NEXT PHASES.

For hand tufted, and hand knotted rugs the
design is used to be projected on a weaving
loom, while, for mechanized rugs, it will be
transformed in a file to be acquired by the
production machine.

DE DIMORA

MANUFACTURING A RUG

HAND TUFTING

A hand tufting is a manufacturing technology where yarn is fed through a needle and subsequently punched in rapid succession through a backing fabric, either with or without scissors. Electric tufting guns can be cut-pile, loop-pile or a combination of both and are able to produce multiple pile heights.

HAND CARVING

A hand carving refers to rugs whose pile has been cut to varying levels.

Using special tools, the rugs are sculpted by hand with precision to create a 3 D effect giving a relief of shapes created according to the customer's request and following the drawing.

Rug hand carving is a skilful finishing technique, defining pile height, that takes many years to perfect.

DE DIMORA

DE DIMORA MAKE REAL THE
CUSTOMER'S DREAMS.

After the receipt of the artist
design, the authorisation for
manufacturing was released and
after 30 days this artwork has been
delivered to the customer's full
satisfaction.
